INSTALLATION INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS

MESURES DE SECURITE A RESPECTURE

Before assembling your ACCESS LIGHTING fixture, please make sure that you carefully read through this instruction sheet. Save this instruction sheet and refer to it when additions to or changes in the fixture configuration are made.

Lisez attentivement ce manuel d'instructions. Enregistrer cette feuille d'instructions et de s'y référer lorsque les ajouts ou changements dans la configuration de montage sont faites.

CONSULT A QUALIFIED ELECTRICIAN TO ENSURE CORRECT BRANCH CIRCUIT CONDUCTOR.

CONSULTER UN ELECTRICIEN QUALIFIE POUR VOUS ASSURER QUE LES CONDUCTEURS DE LA DERIVATION SONT ADEQUATS

THIS PRODUCT MUST BE INSTALLED IN ACCORDANCE WITH THE APPLICABLE INSTALLATION CODE BY A PERSON FAMILIAR WITH THE CONSTRUCTION AND OPERATION OF THE PRODUCT AND THE HAZARDS INVOLVED.

CE PRODUIT DOIT ETRE INSTALLE SELON LE CODE D'INSTALLATION PERTINENT, PAR UNE PERSONNE QUI CONNAIT BIEN LE PRODUIT ET SON FONCTIONNEMENT AINSI QUE LES RISQUES INHERENTS

NOTE: The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. These factors must be supplied by the person(s) caring for and operating the fixture.

Read all instructions

Do not install this fixture in hazardous locations.

N'installez pas cet appareil dans des emplacements dangereux.

Do not install any fixture assembly closer than 6 inches from any curtain or similar combustible material.

Laisser une distance d'au moins 6 pouces entre ce luminaire et la toute surface combustible.

"WARNING Risk of Fire and Electric Shock."

"CAUTION: Risque d' Incendie et de Choc Electriques."

GENERAL INFORMATION

All electrical connections must be in accordance with all ordinances, Local and the U.S. National Electrical Codes (NEC). These fixtures are intended for mounting to a standard 4" metal octagon outlet box.

The box must be directly supported by the building structure and U.L. recognized.

WHAT WE PROVIDE

- Mounting Hardware
- Crossbar Plate
- Fixture Assembly
- Glass Diffuser
- LED Module

WHAT YOU NEED

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

1

PREPARE FIXTURE & MAKE WIRE CONNECTIONS

If there is an existing fixture remove it. Expose the supply wires from the J-box. Secure the crossbar to the J-box with the supplied mounting screws. Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts. Connect the white supply wire to the white fixture wire. Secure with the supplied wire nuts. Attach the green J-Box wire around green hexagonal head screw or connect it to the green supply grounding wire of the fixture. Secure all wires with electrical tape (not supplied). Tuck all wires carefully into the J-box.

2

MOUNT THE FIXTURE TO THE BACK PLATE

Position the fixture over the protruding threaded screws twisting the fixture to ensure that the narrow part of the keyhole is over the screw head. Tighten the screws.

3

SECURE THE GLASS SHADE

Position the glass shade over the pan and gently twist the glass shade in a clockwise direction.
 ** CAUTION: Align the glass such that the three protruding portions of the metal base lip are positioned in the three flat areas of the glass rim. Now turn the glass in a clockwise direction so that the protrusions move into the narrowing groove on the glass rim. DO NOT FORCE GLASS. Glass is secure when there is no gap between base and the glass. Over tightening of the glass may result in the glass being extremely difficult to remove when replacing lamps.

4

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW ACCESS LIGHTING FIXTURE
